

HBN Project (continuation)

24 - 30 June

✓ 1. T-test on the source space

i) T-test (without finding clusters)

Result: Box plots for each bands,
1 sampled t-test 3/5 bands are significant

ii) T-test with clustering

Variants:

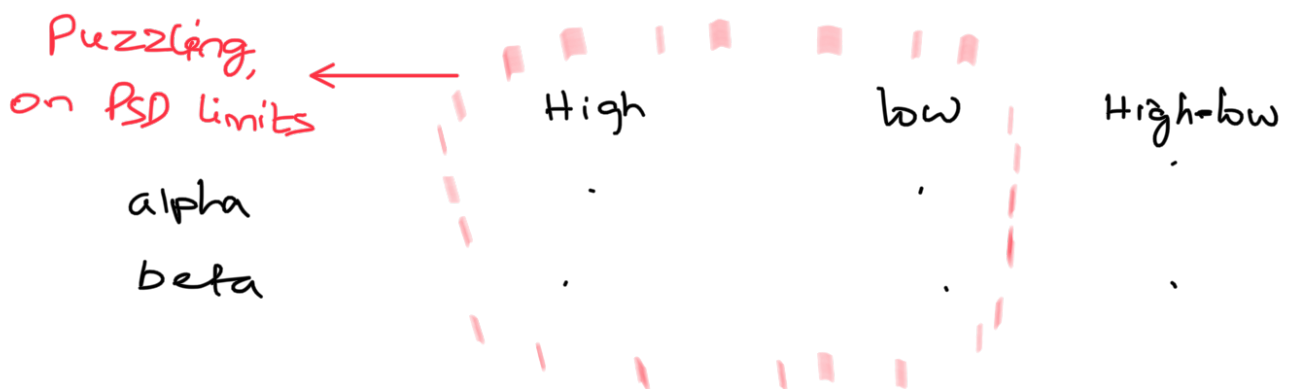

I) hstack (ing) subjects (20k, 10) Dim

Results:

II) No significant clusters in
for all bands

iii) Visualization:

Total no. of plots = Band \times (High/Low)

✓ 2. GSP

Optional:

Cognitive Neuroscience — last week — ~1 chap
Total — almost 7/14
