HBN Project (continuation)

15 - 21 july

1) compiling everything (1st comp, its filtered)

   i) For 1st comp at source:
       → Scaled b/w   -1 to 1
       → Histogram (bi-modal)
       → picked $[-1, -0.5]$ & $[0.5, 1]$

   ii) Added everything in a single page
                (i), delta, theta, etc)

2) Parsing subjects (to ↑ no. of subjects)

3) GSP:

      → Graph terminologies
      → Laplacian
      → GFT
      → Graph filtering

optional:

"Conversations on consciousness" - Susan B

                  8/21 scientists
                  113/283 pages
